

Direct Chill

Bottleless Water-Cooler

OCEANIK TOUCHLESS

The Oceanik is our newest ultra-modern cooler. It features the latest technology and dispensing advancements including our "touchless" design and shrouded faucets. Our direct chill technology features stainless steel waterways for maximum purity, and eliminates the need for a water reservoir and its potential for contamination and required sanitation. With touchless dispensing, shrouded faucets, built-in filtration and direct chill technology, the safety of your customers and staff are assured.

The beautiful stainless-steel exterior cabinet incorporates a fingerprint resistant coating and looks great in hotels, offices, health clubs, and manufacturing facilities. Our Oceanik coolers are simple to install and tremendously efficient, offering excellent drinking water at a fraction of the cost of bottled water. Installation takes only 15 minutes using your water line and following our simple step-by-step instructions.

Features
